Specifications

Provide a Fiberglass Reinforced Composite (FRC) Architectural Outrigger Flagpole Model **#OR 12** as manufactured by PLP Composites, Fitzwilliam, NH 03447.

The flagpole shall have an overall length of 12'. The butt diameter shall be 5" and the top diameter 3". The pole weight shall be approximately 28 lbs. and a total shipping weight of 64 lbs.

The flagpole shall be manufactured of fiberglass woven roving and polyester resin with 75% of the reinforcing fibers oriented in the axial plane for maximum stiffness and 25% in the radial plane for required hoop strength. Load calculations shall be based on AASHTO and NAAMM standards with the pole designed with a two to one (2:1) safety factor for 125 mph winds, unflagged, with a 1.3 gust factor.

The flagpole shall have an Entasis taper and shall be void of vertical mold seams.

The flagpole shall be sanded smooth and coated with a high gloss Aliphatic Polyurea coating system which provides extended UV protection and weatherability.

Standard colors include: White, Black, Bronze, Faux-Luminum, & Metallic Bronze

Note: Mounting bolts for wall brackets are not provided

The 45° Architectural Outrigger Flagpole shall be equipped with an aluminum wall bracket and the pole will be assembled onto this according to the manufacturer's instructions using an epoxy paste mixture and set screws provided. The wall bracket shall be covered with a fiberglass decorative collar. Wall bolts are not included.
